

INTERMENT DESIGNATION FORM

I, _____, as owner of Lot(s) _____ in the _____ Cemetery, wish to establish the following individuals as authorized to be interred within the specified lot(s).

In the instance that all allowed spaces are not designated at this time, subsequent designations may be made in writing to the Trustees. For undesignated lots, the Trustees shall allow additional interments in accordance with applicable Regulations and State Statutes.

Multiple designations may be made for the same lot (in the instance where cremations or other circumstances allow room for multiple burials in the same lot – see Cemetery Regulations), however, if the number of allowed burials decreases based on the type of burials that occur or other circumstances, the total burials per lot shall not exceed that permitted by the Cemetery Regulations.
