**Joint Work Session**

The Gilmanton Planning Board and Conservation Commission conducted a Joint Work Session Meeting, at which time they discussed the use of Biosolids and Aquifer Overlay. The purpose of the Work Session is to begin working on possible Zoning Ordinance amendments.

The Planning Board will continue Biosolids discussions on September 9, 2010, when Professor Caroline Snyder, co-chair of New Hampshire's Sludge Management Advisory Committee and member of the Sierra Club Sludge Task Force will present information pertaining to the use of biosolids.

Respectfully submitted,

Desiree Tumas  
Planning Administrator
