

Town Of Gilmanton
Road Committee Meeting Minutes
Academy Building
Wednesday June 6, 2012 6:00pm

Minutes

Present: Brett Currier, Mickey Daigle, Bill Smith, Buzzy French, Paul Perkins

Motion: Mickey was voted to be chair and Bill was voted to be secretary

Bill handed out an outline of what his thoughts were on how the committee should conduct its business for everyone's review.

Discussion:

6-6-1 Everyone agreed that unless a very specialized project was needed that we as a committee would try to move forward without any engineer.

6-6-2 Whenever possible work must be done on any new construction or drainage projects should be complete during dry months.

6-6-3 Any new projects should be put out to bid to ease the town crew to mostly maintenance

6-6-4 Paul said he believed that all permitting was good.

6-6-5 It was discussed that under drain cross culverts and ditching is very important along with the use of road fabrics and gravel.

6-6-6 Discussion on priority areas were talked about and it was discovered Paul had in his budget to reconstruct and add under drain to an area on Loon pond Road near Mark Jesseman's. The next meeting will be there on 6/20/2012, at 6:00 pm.

Respectfully Submitted,

Bill Smith
