

GILMANTON RESIDENTS & PROPERTY OWNERS

Gilmanton is in the process of issuing new decals for the recycling center. The new decals are orange, and will have an expiration date of December 31, 2013. Please make sure you get your new decal as soon as possible, as you will need the new decal to continue to be allowed the use of the facility for trash disposal.

Beginning September 1, 2011, there will be a \$3.00 (Three Dollar) fee for each decal that is issued to you.

New decals must be acquired before January 1, 2012.

We will be issuing separate decals to property owners who have land only (no building on property). These decals will be a different color and shape from the regular decals, and will allow the owner to dispose of brush only.

The fee for this decal is \$3.00 (Three Dollars).

We will still issue “temporary” permits. These permits allow a non-property owner or non-resident to dispose of household trash while helping a resident clean up their property, or for a resident who has temporary plates until they can get permanent plates for their vehicle. There will be a \$3.00 (Three Dollar) fee for these permits, and will be available only in the Town Clerk’s Office.

In an effort to make the process more convenient for our residents and property owners, the new decals are available through the Town Clerk’s Office. Photo ID (i.e. Driver’s license) and registrations are required on the new application.

Effective September 1, 2011, decals and additional other chargeable items (which you previously had to pay for at the Recycling Facility) will be available for purchase on line via ACH or credit card on the Recycling Facility Section of the Town website. When prepaying for a chargeable item online, you will need to print an additional receipt from your online transaction at that time to bring with you and present to the Recycling Facility attendant with the item(s) you wish to dispose of. Please see the website for a complete list of chargeable items which you may prepay for online.
