

Gilmanton Annual Report for 1989
REPORT OF THE CEMETERY TRUSTEES

The Cemetery Trustees held several meetings during 1989, discussing and reviewing the maintenance of the towns cemeteries under our jurisdiction and the Mary Baker marker (off Route 140 in the Corners). We held one meeting with Mr. Edward Kelly, our maintenance contractor, to discuss his activities for the year in the light of our budgetary restrictions.

In addition to the usual spring, 4th of July, Old Home Day schedule of clean up and mowing at the various locations in town, we arranged for the removal of a large fallen tree from the Stage Road (near Route 107) cemetery. The Trustees believe that the cemeteries and gravestones should be protected and preserved and therefore have instituted a program, beginning this year, to right and, where necessary, repair fallen gravestones throughout the town. This restoration and repair of the town's history, which should not be allowed to disappear forever, will be carried out in the future as funds are made available.

Respectfully submitted,
Mildred H. Aylward
