RE: Town and School Election

Thank you to our moderator, ballot clerks, supervisors, selectmen, assistants, and clerks for all of your hard work, attention to detail, and perseverance throughout the day during our Town and School election. Without your dedication, the election processes would not have functioned as smoothly as they did.

Yesterday's election was highly successful, and the reconciliation of the election by the Supervisors of the Checklist went smoothly today. This election had seven pages of double-sided ballots; five for the town and two for the school. The Accuvote Ballot Machine counted 5780 pages cast throughout the day.

After reconciliation, the Supervisors came to the conclusion that there were 826 voters that came through the polls, including a new voter who was not counted in the preliminary tally yesterday after the polls closed. This means that there were two (2) individual pages which weren't counted by the machine.

After conferring with our Supervisors and our Moderator, it has been determined that these two pages which were not counted by the machine would not have affected any candidate, warrant article, or petition warrant article outcome, and that even if these two pages had been counted by the machine it would not have impacted the final resulting tallies.

With full transparency we would like to report the updated resulting numbers for the evening as follows:

826 voters, with a 30% voter turnout

Thank you most of all to every voter who took time to vote in person or by absentee ballot. It was wonderful to see as many people as we did, and we are looking forward to the next election in September.

Sincerely,

Maura Thomas
Town Clerk
